On Tuesday, the Delta Vision Foundation released the 2013 Delta Vision Report Card. The Report Card assesses progress and performance in implementing the 2008 Delta Vision Strategic Plan and subsequent implementing legislation.

Your input was an important part of the evaluation and recommendations. I have attached the Executive Summary, the Report Card, and the appendices.

If you have corrections or updates to any of the information in the Report Card, please get me comments before July 19.

Thanks again for your input. We could not prepare this report without your candid reporting and recommendations.
